DETAILED ACTION

Election/Restrictions

1. The applicant(s) amendment filed 2/17/04 has necessitated the following action.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 2-7, drawn to a process of producing an electronic part, classified in class 29, subclass 25.41.
 - II. Claims 8-21, drawn to a process of printing a conductive paste, classified in class 29, subclass 846.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions of Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention of Group II within the process of making has separate utility such as the conductive paste being printed or by printing, and that during baking, the ceramic green sheets move toward the tip of the conductive paste. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
5. Newly submitted Claims 8-21 are directed to an invention that is independent or distinct from the invention originally claimed for the reasons stated above.

Since applicant(s) have received an action on the merits for the originally presented invention (Group I), this invention has been constructively elected by original presentation for

prosecution on the merits. Accordingly, Claims 8-21 have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

EXAMINER'S AMENDMENT

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Christopher Bennett on March 12, 2004.

The application has been amended as follows:

Claims 8-21 have been cancelled as being directed to an invention non-elected.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Dexter Tugbang whose telephone number is 703-308-7599. The examiner can normally be reached on Monday - Friday 7:00 am - 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 703-308-1789. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
